# Lukas Fritsch

 Full-Stack Web Developer  Creative Mind  
born 07.08.1989 in Hamburg

 **Hi!** Driven by a passion for engaging applications, I recently completed a Full-Stack Web & App Development Bootcamp, gaining a strong foundation in React, JavaScript, HTML, CSS, and modern frameworks through hands-on experience. Combining creativity, analytical thinking, and problem-solving, I strive to craft intuitive, user-friendly web applications.

## WORK EXPERIENCE

### Digital Concept Developer | 2018 - 2024

Pop Rocket Labs GmbH

-  My projects have won or been nominated for awards, including "Deutscher Computerspielepreis", ADC or German Web Awards.
- Developed and presented creative and complex UX concepts for websites, apps and games
- Managed multiple Website & App Projects from start to finish, working closely with designers, developers & customers

### Working Student Game Design | 2018 & Intern Game Design | 2017

Xyrality GmbH

-  I redesigned the onboarding tutorial which increased retention and completion rate
- Improved Game Design and UX Design of a successful strategy game

### Project Manager Market Research | 2013 - 2014 & Apprenticeship | 2010 - 2013

AnswerS Teststudio Berlin GmbH

- Managed qualitative market research studies from start to end
- Conducting, analyzing and processing research studies
- Also supporting the company by building a Joomla website and offering video production
